

Add organizational logo/letterhead

Dear Ministry of Health and Central Region Ontario Health review teams,

As the insert title here of insert name of organization here, I would like to confirm myself, insert as an enthusiastic collaborator and supporter of the Expression of Interest for an Integrated model for Primary Care with the new Primary Care Network in the **XX** OHT community anchored by **Name of Hub/Backbone organization**.

Insert brief overview of your organization.

Insert name of organization is fully committed to working alongside this collaborative network to deliver an innovative and integrated model of primary care, serving residents in **Describe the community/region/neighbourhood**. These communities collectively have an unattachment rate to primary care of almost **XX** people. This innovative primary care network will commit to meeting the needs of the most marginalized, complex and unattached individuals by connecting over **XX** unique primary care practices and **XX** community agencies who will work together to provide expanded interprofessional team based care. The network will also take a population health focus that maximizes, clinical expertise, scopes of practices and connects people to comprehensive primary care close to home.

Name the HUB/Backbone organization as the lead integrator in this proposal and the several primary care organizations together have a strong proven record as collaborators that serves and lives out values to support racialized and vulnerable populations across the entire continuum. **Name the Hub/Backbone** has a strong history of providing quality care that positions them as leaders in the community, particularly in the areas of comprehensive primary care delivery for marginalized communities. This includes but is not limited to people **describe the community members you serve**.

Building an integrated model of care that is deeply embedded in the unique needs of our community and driven by community voices, will allow us to address these inequities and drastically improve health outcomes for thousands of the communities that are currently underserved. Investing in the health of our community is vital, now more than ever.

Insert name of organization here is excited to collaborate on this project and fully supports the partnership of this Primary Care Network to bring about a transformed and sustainable way to deliver comprehensive connected care closer to home.

Sincerely,
[Please add Signature]
