

Governance 3: Executive Leader Evaluation: Supporting and Monitoring Your Executive Director or CEO

The Executive Director (ED) or Chief Executive Officer (CEO) is the Board's sole employee and has a distinct relationship with the Board. A core part of the Board's work is to recruit, support and monitor the ED or CEO. This learning session will look at what the Board needs to do to establish a clear and continuous evaluation process that will assess the ED or CEO's performance against the organization's goals, support them in their work and help ensure strong and effective leadership. We will explore the standards and indicators the Board can use to monitor the executive leader's performance, as well as the processes that need to be put in place to advance the organization's mission and vision.

Presenter: Marion Thomson Howell, Executive in Residence, Capacity Canada
