

## Governance 4: Strategic Scorecard: Monitoring Strategic Plan Progress

One of the board's primary responsibilities is to set direction for the organization through strategic planning. Monitoring progress toward the strategic plan's goals through various systems, like a balanced scorecard, is an important part of this process. In this learning session, the Alliance Board and Alliance members will talk about the strategic plan monitoring mechanisms they use and how it supports their work. The presenters will share the process they underwent to establish the monitoring system, what measures they are tracking, how often they receive progress reports, and how they use the information to make adjustments and ensure the plan's goals are achieved.
