

The KnowledgePool

Making the haystack smaller and the needle bigger

Do you know your self-management plan?

Kingston CHC has funded the development of a tool that puts a copy of an individual's self-management plan in their own hands. We are starting with Diabetes.

The thought process is as follows:

Do you know what to do?

Do you know how to do it?

Are you doing it?

The Alliance for Healthier Communities is helping to get input from diabetes practitioners. The tool will be available for use by any Alliance practitioner.

If you are interested in knowing more and having access to the finished tool, please contact Brian Stutt at The KnowledgePool directly.
