## HELP CANADA PREPARE FOR THE RAPID RESETTLEMENT OF AFGHAN REFUGEES!

Calling on primary care clinics, public health offices, and settlement agencies that support

# REFUGEES & ASYLUM SEEKERS

Researchers from the Canadian Refugee Health Network need your help to characterize Canada's Refugee Healthcare System.

### A STUDY TO UNDERSTAND CANADA'S REFUGEE HEALTHCARE SYSTEM

We want to better understand:

1. Who provides care to refugees and asylum seekers?
2. How are these services coordinated and delivered?
3. How care structures and processes differ across jurisdictions in Canada?
4. How has COVID-19 impacted refugee healthcare and what adaptations have been made?

### WHAT WOULD I HAVE TO DO?

We hope to conduct a short survey with you about:

1. Your clinic, public health, or settlement service
2. How you provide care to large numbers of refugees and asylum seekers

\$10 will be donated to support refugee student scholarships for every survey completed.
