Accessing Data for Common QIP Indicators

Released February 2019 | Updated December 2024

This summary of data sources and calculations for the Common QIP Indicators was extracted from the December 2024 edition of [Technical Definitions for the Common QIP Indicators for CHCs](#). For additional technical information, such as inclusion/exclusion criteria and reporting period, as well as important contextual information, such as limitations and strategic linkages, please see the full document.

| COMPLETION OF SOCIODEMOGRAPHIC DATA COLLECTION | |
|--|--|
| DATA SOURCE | BIRT Data Repository |
| CALCULATION | $(\text{Numerator}/\text{Denominator}) * 100$ |
| NUMERATOR | Total number of active individual CHC clients, 13 years of age and older, who had an encounter with the CHC within the most recent 1-year period and who responded to one or more of the four specified sociodemographic data questions. |
| DENOMINATOR | The total number of active individual clients, 13 years of age and older, who had an encounter with the CHC within the most recent 1-year period. |

| CERVICAL CANCER SCREENING RATE STRATIFIED BY INCOME AND STRATIFIED BY RACIAL/ETHNIC GROUP | |
|---|---|
| DATA SOURCE | Until this indicator is formally developed and available in BIRT, the data will be pulled centrally twice per year and disseminated to PSS CHCs. |
| CALCULATION | $(\text{Numerator}/\text{Denominator}) * 100$ for income level and racial/ethnic group with highest percentage of pap smears - $(\text{Numerator}/\text{Denominator}) * 100$ for income level and racial/ethnic group with lowest percentage of pap smears |
| NUMERATOR | See “Numerator” calculation from Community Health Centre MSAA Technical Definition for Cervical Cancer Screening Rate . |
| DENOMINATOR | See “Denominator” calculation from Community Health Centre MSAA Technical Definition for Cervical Cancer Screening Rate . Denominator will be stratified by the income level and racial/ethnic groups, as above. |
| STRATIFICATION | <p>Numerator will be stratified by income, as listed in the Health Equity Form.</p> <p>Numerator will be stratified by racial/ethnic group, as listed in the Health Equity Form.</p> <p>The difference between the percentages for the highest and lowest group will be calculated. <u>This is the number that should be entered into your QIP.</u> Any groups with ≤ 5 clients in the numerator and ≤ 30 clients in the denominator should be excluded as the percentages may be skewed due to small numbers</p> |

CLIENT FEELING COMFORTABLE AND WELCOME AT CHC

| | |
|--------------------|---|
| DATA SOURCE | Client Experience Survey |
| CALCULATION | $(\text{Numerator}/\text{Denominator}) * 100$ |
| NUMERATOR | The number of client experience surveys that were returned to the HSP within the reporting period that indicate the client responded "Yes" to the survey question "I always feel comfortable and welcome at [name of CHC]?" |
| DENOMINATOR | The total number of clients who responded to the survey question. |

CLIENT PERCEPTION OF TIMELY ACCESS TO CARE

| | |
|--------------------|---|
| DATA SOURCE | Client Experience Survey |
| CALCULATION | $(\text{Numerator}/\text{Denominator}) * 100$ |
| NUMERATOR | Total number of clients who responded "Yes" to the survey question: "The last time you were sick or were concerned you had a health problem did you get an appointment on the date you wanted?" |
| DENOMINATOR | The total number of clients who responded to the survey question. |
